AN ECHO FROM CALIFORNIAN FIELDS!

The BULLETIN OF THE COOPER ORNITHOLOGICAL CLUB OF CALIFORNIA has entered the field as a live ornithological journal of the West, and the proceedings of the Cooper Club, together with other contributions from the Coast are now offered the public in magazine form.

The January number contained a valuable sketch of *Dr. J. G. Cooper, with portrait.* Also among others, a paper giving the first definite information on the

Nesting of the Fulvous Tree Duck,

and this too in an unusual location, which has excited no little comment. This and other features have brought pleasing comments.

F. B. Spaulding says "If you keep up the standard established in your initial number your success is assured."

Mr. Wm. Brewster: "Enclosed find money order for $3 for three copies of your Bulletin."

Benj. T. Gault: "Allow me to offer congratulations due the neat appearance of the initial number."

Ruthven Deane: "I was very much pleased with the first issue. I found much interesting matter, particularly the article on the Nesting of the Fulvous Tree Duck. This is certainly a very valuable treatise on the subject."

The March number is replete with fresh articles, among them "The Capture of a Baby Condor," "Summer Warblers of Arizona," "Nesting of the Water Ouzel," "The Rhinoceros Auklet at Santa Catalina Island," "The Slender-billed Nuthatch," two new bird descriptions and a wealth of shorter articles and notes. 20 pages of crisp Pacific Coast observations. You want it!

I am now prepared to fill orders for the following eggs collected by my expedition along the Arctic coast of Alaska, east and west of Point Barrow.

All these eggs are rare, and as the supply is limited to a few sets of each, it would be well for parties desiring sets to order at once. I have a few sets that are imperfect, these I will dispose of at ½ given rates.
